ARTICLE VI
NEGATIVE SLIPPAGE

To ensure the timely implementation of the project and the effective management of the performance of the CONTRACTOR, the following calibrated actions in response to delays in the implementation of the project are hereby adopted:

1. Negative slippage of five percent (5%) –

The CONTRACTOR shall be given a warning and be required to:

- a. Submit a detailed "catch-up" program every two weeks in order to eliminate the slippage and to restore the project to its original schedule;
- b. Accelerate work and identify specific physical targets to be accomplished over a definite period of time; and
- c. Provide additional input resources such as the following: money, manpower, materials, equipment, and management, which shall be mobilized for this action.

The CITY OF PASIG through the City Engineering Office shall exercise closer supervision and meet the contractor every other week to evaluate the progress of work and resolve any problems and bottlenecks.

2. Negative slippage of ten percent (10%)–

The CONTRACTOR shall be issued a final warning and be required to come-up with a revised detailed "catch-up" program with weekly physical targets together with the required additional input resources.

The CITY OF PASIG through the City Engineering Office shall intensify on-site supervision and evaluation of the project performance to at least once a week and prepare contingency plans for a possible termination of the contract or take-over of the work by administration or contract.

3. Negative slippage of fifteen percent (15%) –

The CITY OF PASIG shall likewise take proper transitory measures to minimize work disruptions, e.g., take-over by administration while negotiation or rebidding is on-going.

ARTICLE VII
LIQUIDATED DAMAGES

The CONTRACTOR shall complete the construction of the project as stipulated in Article V hereof. If the CONTRACTOR fails to complete the same within the stipulated time, the CONTRACTOR shall pay the CITY OF PASIG Liquidated Damages (LD) in an amount equal to at least one tenth (1/10) of one percent (1%) of the unperformed portion of the works for every day of delay.

In case the delay in the completion of the work exceeds a time duration equivalent to ten percent (10%) of the specified contract time plus any time extension duly granted to the CONTRACTOR, the city may rescind the contract, forfeit the contractor's Performance Security and takeover the project or award the same to a qualified contractor through negotiated contract.

In case the total sum of liquidated damages reaches ten percent (10%) of the total Contract Price, the CITY OF PASIG has the following options:

(i) Terminate the contract pursuant to the Guidelines on Termination of Contracts and forfeit the erring contractor's performance security. After termination, the CITY OF PASIG may either (i) take over the contract; or (ii) resort to any of other alternative methods of procurement provided under R.A. No. 9184 and its implementing rules and regulations; or

(ii) Allow the contractor to continue the works without prejudice to the continued imposition of liquidated damages until the works have been completed. This does not, however, preclude the CITY OF PASIG from resorting to termination of the contract under R.A. No. 9184 and its implementing rules and regulations.

ARTICLE VIII PROGRESS PAYMENT AND RETENTION MONEY

Once a month, the contractor may submit a statement of work accomplished (SWA) or progress billing and corresponding request for progress payment for work accomplished. The SWA should show the amounts which the contractor considers itself to be entitled to up to the end of the month, to cover (a) the cumulative value of the works it executed to date, based on the items in the Bill of Quantities, and (b) adjustments made for approved variation orders executed.

The CITY OF PASIG shall check the CONTRACTOR's SWA and certify the amount to be paid to the contractor as progress payment. Except as otherwise stipulated in the Instruction to Bidders, materials and equipment delivered on the site but not completely put in place shall not be included for payment.

The procuring entity shall deduct the following from the certified gross amounts to be paid to the contractor as progress payment:

- a) Cumulative value of the work previously certified and paid for.
- b) Portion of the advance payment to be recouped.
- c) Retention money in accordance with the condition of contract.
- d) Amount to cover third party liabilities.
- e) Amount to cover uncorrected discovered defects in the works.

No payments shall be made to the CONTRACTOR unless a certificate of accomplishment is issued by the CITY OF PASIG, fully supported with an affidavit by the CONTRACTOR that all costs for labor and materials within the relevant period are fully paid by the CONTRACTOR.

Progress payments are subject to retention of ten percent (10%) referred to as the "retention money." Such retention shall be based on the total amount due to the contractor prior to any deduction and shall be retained from every progress payment until fifty percent (50%) of the value of works, as determined by the procuring entity, are completed. If, after fifty percent (50%) completion, the work is satisfactorily done and on schedule, no additional retention shall be made; otherwise, the ten percent (10%) retention shall be imposed.

The Total Retention Money shall be due for release upon Final Acceptance of the works. However, the CONTRACTOR may request the substitution of the Retention Money for each progress billing with irrevocable standby letters of credit from a commercial bank, bank guarantees or surety bonds callable on demand of amounts equivalent to the retention money substituted for and Acceptable to Government provided that the project is on schedule and is satisfactorily undertaken. Otherwise, the ten percent (10%) retention shall be made. Said irrevocable standby letters of credit, bank guarantees or surety bonds to be posted in favor of the CITY OF PASIG shall be valid for a duration to be determined by the CITY OF PASIG and will answer for the purpose for which the ten percent (10%) retention is intended, i.e. to cover uncorrected defects and third party liabilities.

Officer in Charge Engineering Office

The CONTRACTOR shall be required to put up a warranty security in any of the following forms:

The Warranty Security shall be denominated in Philippine Pesos, shall remain effective for one (1) year from the date of issuance of the Certificate of Final Acceptance by the CITY OF PASIG, and shall be returned only after the lapse of the said one (1) year period.
